

PADEL AND SOCIAL CLUB LIGHTNING PROTOCOL

LIGHTNING

Lightning is monitored by a Weather intelligence system at Padel and Social Club. This system does not provide absolute protection nor can it be guaranteed to provide adequate warning of all possible lightning strikes.

Take shelter immediately if you hear thunder, see lightening, if the siren sounds, and/or if the strobe light is on. (It's not an invitation to carrying on partying on court)

Remain sheltered until the all-clear signal is received from the operations team.
